

Call for Papers

Objectives:

Panorama: a biomedical perspective aims to promote the communication of research and professional activities within the scope of the University of Western Ontario IEEE EMBS student chapter. This peer-reviewed publication encourages students in biomedical engineering, biological and medical sciences to share their current work and ideas in plain language, which is understandable to everyone working within these fields.

Topics:

- Biomedical Imaging & Image Processing
- Bioinformatics, Computational Biology; Systems Biology, Modeling Methodologies
- Biomaterials, Molecular, Cellular and Tissue Engineering
- Biomechanics and Robotics
- Therapeutic & Diagnostic Systems, Devices and Technologies, Clinical Engineering
- Healthcare Information Systems, Telemedicine
- Technology Commercialization, Education, Industry and Society

Paper Submission:

We invite electronic submissions of approximately 1500 words following the Authors' Guidelines for structure and format. Please submit your manuscript online at ir.lib.uwo.ca/panorama. If you have more questions, please contact the editor-in-chief, Mohammad Kayvanrad, by email at mkayvanr@uwo.ca or the managing editor, Eli Gibson, at egibson@imaging.robarts.ca.
