What I've learned about education

- It is the force through which we can enact positive change
 - It is not equally accessible throughout our nation
- Most of it takes place outside of the classroom
 - We still have a lot of ignorance to dispel and the best place to start is with our own.

Elephant Thoughts:

It was this amazing organization which allowed me to have this valuable learning experience and which enabled me to hone my professional skills. **Interested to learn more about Elephant Thoughts and their initiatives ?**
