Thinking on my future roles
So many years of education, yet nobody taught us how to love ourselves.

Education is the key to my doors to open! You can do it, you can do it!! 😊❤️
What I’ve learned about education

• It is the force through which we can enact positive change
  • It is not equally accessible throughout our nation
• Most of it takes place outside of the classroom
• We still have a lot of ignorance to dispel and the best place to start is with our own.
