**CARTOGRAPHIC INFORMATION**

The cartography was done by the Cartography Section, Surveys and Plans Office, Ministry of Transportation and Communications.

Much of the base material was provided by the Cartography Section, Surveys and Mapping Branch, Ministry of Natural Resources.

All settlement and topographic names present on the map have been verified for correctness with the Gazetteer of Canada, Ontario 1974, produced by the Federal Department of Energy, Mines and Resources and the Ontario Geographic Names Board, Ministry of Natural Resources.

Much of the information shown on this map has been derived from many governmental sources (Federal, Provincial, Municipal, State) and from other sources (railway companies, CBC, CRTC, St. John Ambulance, etc.). A list of these sources is available on request.

Information pertinent to this map should be directed to:

THE DAILY GLOBE, TORONTO, MONDAY JULY 2ND, 1866.

(FROM THE OIL SPRINGS CHRONICLE.)

STORM DATE, ABOUT 1 P.M., MON. JUNE 25TH, 1866.

TERRIFIC HURRICANE.

A terrific tornado swept over this village on Monday afternoon last, which for destructive fury has never before been equalled. It occurred at about one o'clock p.m. The rain poured down in torrents, the lightning flashed with fearful distinctness, and the wind howled in fearful gusts. The scene was one of thrilling grandeur. Fortunately the storm lasted but for about thirty minutes, when the atmosphere became again clear.

During the progress of the hurricane, however, a great amount of damage was done to property, but we are happy to say no very serious accidents to life or limb have occurred.

The chief damage was the blowing over of COULSON'S new HOTEL, upon which the carpenters were just putting the roof. Fortunately the workmen had not returned from dinner, or we might have had to deplore a serious loss of life. As it was, one man who was in the building, had a narrow escape. His name is HAGERTY, and strange to say, although the immense mass of timbers fell upon and around him, he was yet able to crawl out from amongst the debris, with but very slight injury. DR. BEATON was in attendance promptly, and rendered the necessary surgical assistance. The wreck of the HOTEL is complete, not a single timber being left standing. The loss will be heavy, and will fall chiefly upon the contractor, MR. R. CLOW, with whom we deeply sympathize. The CHRONICLE and STORE of messrs. KEATING and PERRY situated within 28 feet of the HOTEL fortunately escaped injury from the falling building as if by miracle. KEATING and PERRY lost a quantity of glassware, which was knocked off the shelves by the crashing of the falling timbers upon the side of the building. MR. O'GRADY'S DERRICK, on the south side of MAIN STREET, was blown down, and fell across MAIN STREET. Fortunately no person was passing at the time. A DERRICK belonging to the WYOMING ROCK OIL COMPANY, was also blown over. The PAINT SHOP of MR. TAYLOR, situated on the east side of the creek, was blown down and is a complete wreck. LOOMIS' DERRICK, and a DERRICK belonging to the TORONTO ROCK OIL COMPANY were also blown over. Trees fell in all directions, and it was reported that a man and two children were injured by a falling tree, but the report has not been corroborated. The thermometer previous to the storm, stood at over 100° in the shade.

THE DAILY GLOBE, TORONTO. FRIDAY JUNE 29TH. 1866.

STORM DATE. AFTERNOON, MON. JUNE 25TH. 1866.

BOTHWELL, JUNE 26TH. A tornado passed over this place yesterday afternoon, blowing down fifteen or twenty derricks, demolishing houses, and uprooting trees. A carpenter, working on the roof of a house that was blown down, was severely injured by the fall. Several shanties among the wells had trees blown across them. The derrick, engine house, fixtures, and about 100 barrels of oil belonging to the WIDDER WELL, on the PEPPER FARM, were consumed by fire yesterday evening.

THE DAILY GLOBE, TORONTO, WEDNESDAY JUNE 27TH, 1866.

STORM DATE. AFTERNOON, MON. JUNE 25TH, 1866.

HEAVY STORM ON MONDAY.

A tornado took place on Monday afternoon, which did a good deal of damage in the WESTERN part of CANADA and some places in the UNITED STATES. It was very destructive at PORT HURON, and in OIL SPRINGS inflicted a great deal of damage, blowing down frames and derricks. We shall, probably, hear more of its ravages in the rural districts in the WEST. In BUFFALO, the roof of a wing of a FOUNDLING HOSPITAL was crushed in. About forty children were in the room below, but, fortunately, only three were injured, and only one of them is supposed to be in danger. A canal boat was driven against another lying near the foot of MAIN STREET. The ends of both were smashed in, and a woman on board immediately killed. Chimneys, roofs, and even whole frame houses were blown down in every direction. Large quantities of windows were broken, including valuable plate glass in the principal streets. There was every appearance of a storm in TORONTO about the same time, but the clouds passed over southward,
