DRAYTON ADVOCATE. WEDNESDAY JULY 22ND. 1925.

STORM DATE. THURSDAY JULY 16TH. 1925.

ELECTRIC STORM SWEEPS ONTARIO LEVELLING GRAINS, TREES AND BUILDINGS.

A despatch from HAMILTON says:— Between 7 and 8 o'clock Thursday morning HAMILTON and district received the full fury of a violent electrical storm, accompanied by a high wind and torrential rain.

Considerable damage was done to trees. Many were uprooted, and one at the Beach fell over an unoccupied house and demolished it. Overhead wires and poles suffered much, while underground conduit systems were also damaged, by reason of sewers being flooded.

Officials of The Bell Telephone Co. reported that at one time during the storm 2,000 telephones were paralyzed, and service on mostly all long distance lines was interrupted.

Power lines of the Hydro-Electric and the Dominion Power and Transmission Co. were also affected, but not to a serious degree.

Several barns and silos were reported to have been badly damaged at near-by rural points.

Service on radial lines and the street railway was interrupted by fallen wires and trees which fell across the track.

One large tree was struck by lightning near the Nurses' Home at the General Hospital. It fell within a few feet of the building.

A despatch from CORNWALL says:—CHARLES CRITES, aged about 38 years, a farmer, AULTSVILLE, was instantly killed when he ran into an automobile as he was crossing from his barn to his home with a hat full of eggs. A heavy electrical storm was prevailing at the time and the man had his head covered with a coat or bag to keep the downpour of rain away.

A despatch from LONDON says:—Lightning, during a heavy thunderstorm which swept the district Thursday morning, struck the barns of DUNCAN CAMPBELL of the 6TH. CONCESSION of LOBO, causing a loss of about \$10,000. Twenty pigs, thirty tons of hay, and a cream separator were destroyed in the barns.

A despatch from BELLEVILLE says:—A large section of PRINCE, EDWARD COUNTY was swept by a terrific windstorm Thursday morning for the space of half an hour, and when it had passed it was found to have left a very heavy loss to property in its wake. The storm area was from CHERRY VALLEY to three or four miles north of PICTON.

ELECTRIC STORM SWEEPS ONTARIO, JULY 16TH. 1925.(CON'D)

Scores of barns were demolished; crops were fattened and fruit trees uprooted in various parts, many orchards being badly damaged by the wind. A silo at the A.C.MILLER plant at PICTON was demolished and plate glass windows were blown in stores.

YEREXVILLE was the centre of the cyclone. This place is about two miles north of PICTON. THOMAS ALEXANDER'S barn was simply blown to pieces. His loss to this and other buildings will be more than \$5,000. A barn belonging to MR. RALSTON was wrecked, flying scantling being driven through the house and striking a stove, set fire to the house. The blaze was put out.

The village of BATH, on the BAY OF QUINTE, suffered severely from the storm, and trees all through the village and surrounding country which had stood for many years under all conditions have fallen to the ground. In the midst of the storm wires were ripped like so much thread, and two splendid silos, one belonging to ALBERT MOHAN and one to FRED FRANKLIN, were destroyed.

A despatch from MONTREAL says:—Several stores on ST. CATHERINES STREET, the chief business street of the city, were flooded as a result of torrential rains which fell around noon. The rainfall was accompanied by a terrific thunderstorm, but no serious damage was done outside to that of stocks in the several stores on low-lying streets.
