Thunderstorm knocks out power, batters h

By Abby Deveney, Jane Defalco
and Bob Marleau
Citizen staff writers

The brief but intense thunderstorm that belted the Ottawa-Hull area late Monday afternoon left a trail of fires, battered roofs and downed trees and hydro lines.

Power to thousands of homes in the region was knocked out as the storm roared through with sharp bolts of lightning about 4 p.m., followed by winds gusting to 60 kilometres an hour and blinding rain.

By 6:30 p.m., the worst was over and residents started to clean up debris.

Rock Mallin, of St. Laurent Boulevard, says he watched a shed in a neighbor's yard torn apart and tossed through the air as the storm grew.

"I saw things flying all over the place. It was just like a twister. You wouldn't believe the noise it was making," said Mallin, who battled to close his front door before rushing his family into the basement.

While the weather office at Ottawa International Airport got less than a half inch of rain, heavier downpours were encountered in various locations. Reading were not immediately available.

Provincial police and firefighters had their hands full after lightning started fires in houses and barns in Rideau Township, Cumberland and Manotick.

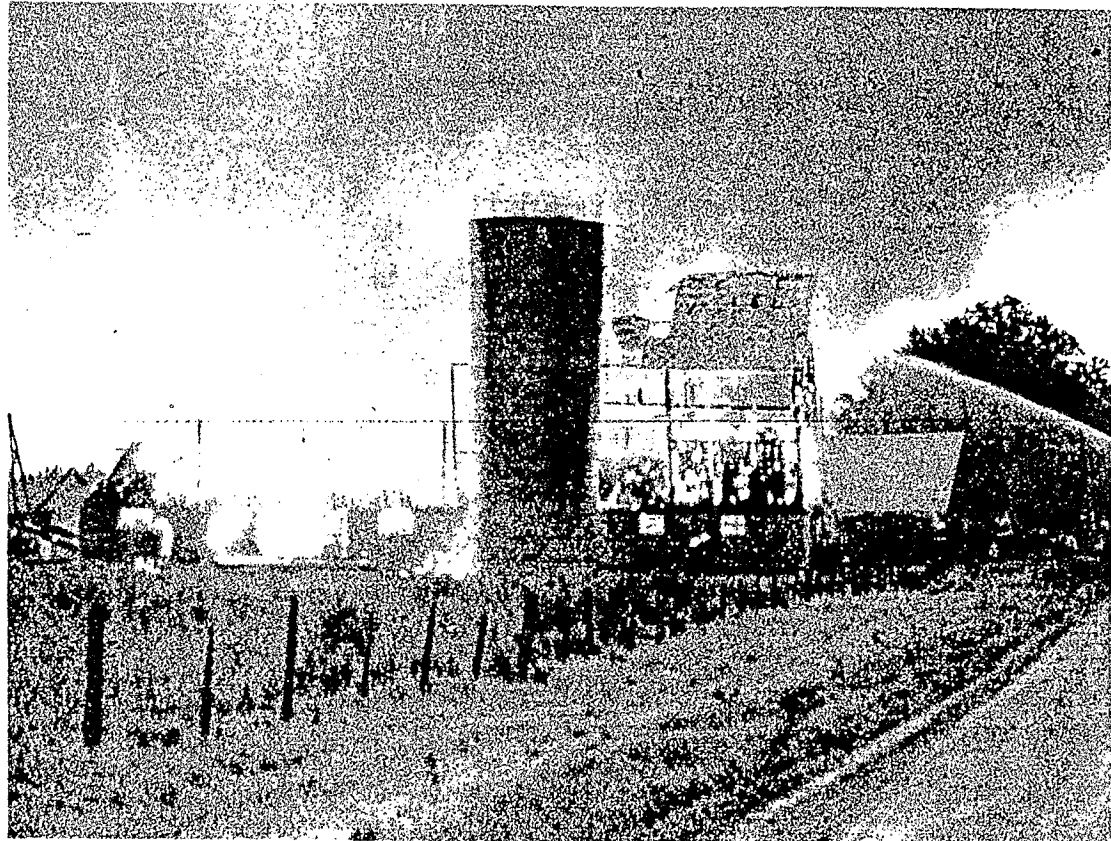

Rideau Township firefighters worked late into the night extinguishing a blaze that started when lightning hit a hay barn at Regional Rd. 8 and the Third Line about 5 p.m.

No one was injured in the fire, which required the assistance of firefighters from North Gower and Nepean.

In Ottawa and Gloucester, heavy winds tore off portions of the roofs from Dan Bresnahan's Beaverhill Drive house in Beacon Hill and the Jee family's home in the St. Laurent area.

"I guess the wind just picked the roof up and peeled it back like the lid of a tin can," said Bresnahan, who was arriving

S. Africa threatens to expel foreign b

UPI and CP

JOHANNESBURG, South Africa — President Pieter Botha threatened Monday to expel as many as 1.5 million foreign blacks working in South Africa if other nations join France in imposing sanctions to protest the nine-day-old state of emergency.

Botha's comments came a few hours after he rejected talks with Bishop Desmond Tutu about the state of emergency declared July 21 in an attempt to end 11 months of racial violence in the country's black townships.

The president said Tutu, the 1984 Nobel Peace Prize winner, could join an Anglican Church delegation scheduled to meet with him in August. But Tutu, saying he was disappoint-

ed by Botha's rejection of direct talks, said he would not attend the meeting.

In London, meanwhile, External Affairs Minister Joe Clark denounced South Africa's heavy-handed efforts to quash anti-apartheid unrest.

"Imprisoning hundreds is no way to start a dialogue," said Clark in a warmly received speech to the staid and already-convinced Royal Commonwealth Society.

But Clark's toughly worded call for dialogue between the country's white rulers and its black majority included no new measures to put more pressure on Pretoria and only a vague suggestion that Canada and the Commonwealth have a special duty to "point the way to reforms that will both end apartheid

and rebuild relations w

Clark said the furt
