--o--o--o--o--

A list of things I could not put in the book.

- The Chart of World History
Three by six feet
- The Prismatic Piano Model
Electric control
- Three University Diplomas
Western, McGill, Boston
- The Roller Star-Map
Three by five Feet
- The ten astro-lecture charts
Three by four feet
- A 6-foot portable Foucault Pendulum
Over a large sphere
- A set of hollow wooden planets
To suit a 9-foot Sun
- A large composite map of the Moon
Made from 18 photos
- A large white-board 3-feet square
To receive images of Sun
- A 3-foot circular star-map with
myths drawn in color
- A large perspective drawing in color
of each church I served
- Several enlarged Bible maps for S. S.
for platform addresses
- Made architectural drawings for a gym,
a church, a parsonage and a stellarium
- Several bird's-eye wash drawings of
large factories of various kinds
- Some pieces of Clay modeling including
Busts of Gladstone, Dr. Fox and Myself
as well as a 3-foot statue of two
gladiators, one slain, one victorious
- A working model of the 200-inch Hale telescope
the scale is one to forty
- The annual prize of the Board of Governors
of Mc.Gill Univ. for Philosophy
- The Medal of the Royal Astronomical Society
of Canada for outstanding work
- The Silver Tray of the University of W.O.
For Devoted Service

W.G.C.

*A large Astronomical Scrap-Book
from many books and magazines*

WHERE

Chap.I. No cuts necessary
