

# Physical Activity Resource Assessment (PARA) Form Protocol and Operational Definitions

## Protocol

### General Directions

- At an indoor facility, stop at the reception area and introduce yourself to desk staff and/or management. Briefly describe the project, and explain the purpose of your visit.
- If an outdoor location, drive around the resource perimeter to assess the safety before getting out of the car.
- If anything looks dangerous or suspicious, write a note on the assessment form and report to Project Manager. Move onto the next physical activity resource to be assessed. If at any time conditions become unsafe, return to the car and continue to the next assessment.
- If there is a physical activity resource that is not on the list, collect data for it in a blank Physical Activity Resource Assessment form. Include resource name and street address.
- The outlying boundary for a physical activity resource(s) will be as follows:
  - If a gate is surrounding the physical activity resource, then the physical activity resource will be assessed from the gate in.
  - If there is no gate, but there is a sidewalk, then the physical activity resource will be assessed from the outer edge of the sidewalk in.
  - If there are no consecutive posts that signify a boundary, then the physical activity resource will be assessed from those posts in.
  - If there is no clear indicating boundary for the physical activity resource, then the physical activity resource will be assessed from the end of the adjacent street(s) in.
  - If there is an outlying ditch that signifies a boundary and there is no sidewalk, gate, or posts, then the physical activity resource will still be assessed from the adjacent street(s) in.
- If there is an activity resource that starts inside the 1 mile diameter boundary and extends beyond the boundary, then that activity resource should be fully surveyed and assessed.

### At top of form:

If the form is to assess a pre-identified physical activity resource, there will be a sticker produced from the Excel record of businesses and physical activity resources for each Housing development. The sticker should have the correct street address for the physical activity resource. Please verify that the address on the label is correct. If it is not, please write a note in the comments section of the PARA form.
